

Call To Makers!

Central Oregon

Maker Faire®

The upcoming Nov 13 - Nov 14, 2021, first annual Central Oregon Maker Faire is a full-blown local community festival celebrating innovation, invention, and the do-it-yourself spirit! Our aim is to bring together artists, tinkerers, scientists, experimenters, crafters, designers, engineers, foodies, musicians, and builders of all ages who would like to share their work and ideas with others. We will be sharing the fairgrounds with the highly-attended and well-established Old Fashioned Christmas event! We expect to attract thousands of attendees, and you will have the opportunity to meet many other makers who will be showing and explaining projects of all types! Get more info at <https://centraloregon.makerfaire.com>

Exhibits that are interactive or highlight the process of making things are especially appreciated!
